SLIDING ARMREST TO IMPROVE ERGONOMICS AT THE WORKPLACE

The innovative CHERRY SLIDEPAD ERGO optimises the position of the wrist and forearm, which reduces pain when working with your mouse and keyboard. Although your arm rests comfortably in the padded support surface, you still enjoy complete freedom of movement. There is no need to raise your arm when switching from mouse to keyboard. Instead, just glide back and forth effortlessly.

The flexible support relieves the arm and encourages an upright posture. The CHERRY SLIDEPAD ERGO provides support in everyday work and thus also contributes to relaxing the shoulders. RSI (colloquially known as "mouse arm"), carpal tunnel syndrome, elbow problems or tendonitis can be prevented.

The CHERRY SLIDEPAD ERGO can be used universally and with any mouse or keyboard - of course also with vertical mice. You can use the pad left or right, or even ambidextrous. Position your arm where it fits best, from the front of your wrist to the back of your elbow.

The CHERRY SLIDEPAD ERGO slides perfectly and smoothly over any surface, whether on a mouse pad or a smooth desk surface. Cleaning or disinfecting is also very easy thanks to the pleasant material made of high-quality synthetic leather and contributes to longevity.

An elegantly designed product that fits perfectly into any workplace. Clean and minimalist design for maximum ergonomics.

In addition to all its ergonomic properties, the sliding armrest also scores with aspects of sustainability: the FSC-certified brown box does not contain any plastic either inside or outside. In addition, the ABS plastic used in the product itself is made from 100% recycled materials.

Key Benefits

- Compatible with all available mice and keyboards
- Full freedom of movement with a comfortable posture at the same time
- The large, curved and soft contact surface prevents pressure points on the arm
- Can be used individually for the right or left hand, when using two pads also for both hands
- Glides over almost any surface
- Ergonomics certified by the IGR (Institute for Health and Ergonomics)

Technical data

- Weight (Product): 115 g
- Total weight (incl. packaging): 145 g
- Storage temperature: -20 °C to +60 °C
- Operating temperature: 0 °C to +40 °C
- Scope of delivery: SLIDEPAD ERGO
- Dimensions product: 136 x 113 x 40 mm
- Dimensions packaging: 150 x 120 x 44 mm
- Packaging:
 - Number of products in outer package: 26
 - Number of master carton on palette: 78
